NOTES ON THE 1790 CENSUS.

1. The first Federal Census of the entire United States was taken in 1790. The first complete enumeration in England and in France was made in 1801,
2. The 1790 enumeration was to start on the first Monday in August (2 Aug 1790) and be completed within 9 months. Later, the Vermont enumeration period was changed to the 5 months following the 1st Monday in April 1791. Every person whose usual place of abode was in any family on the aforesaid 1st Monday in August was to be returned in such family; any person with no usual place of abode was to be listed in the district where he was on the 1st Monday in August; temporary absentees were to be enumerated where they usually resided. It is probable that in all States except Vermont and in South Carolina the enumeration was completed within the specified 9 months.
3. Enumerators were paid \$1.00 for every 300 persons listed in towns of more than 5000 persons, \$1.00 for every 150 persons in country districts, and \$1.00 for not fewer than 50 persons in special, sparsely settled districts. In addition, they received \$4.00 for posting, at two places in their districts, correct copies of their schedules, showing the number of inhabitants within their districts. Enumerators furnished their own paper, hence the lack of uniformity in the original schedules.
4. The 1790 schedules of some states are missing, but the returns for those States in which Bunkers have been found are said to be complete.
5. The original schedules were arranged, paginated, and indexed by the Department of the Interior in 1897. In some schedules the names are listed alphabetically, showing that they were made up from preliminary field notes; others seem to be arranged in the order in which the persons were found, and hence furnish evidence as to proximity of families. New England returns are arranged by towns (except in New London County, Conn.); New York returns are usually by townships under each county; the returns for the Southern States are by counties only.
6. The original schedules for Maine, New Hampshire, Massachusetts, and Connecticut are now bound together in one volume for each state. The records of all States have been issued in printed form (now out of print) and the page numbers herein refer to pages in the printed edition, in which each State is represented by a separate volume.
7. It has been estimated that 250,000 persons immigrated into the United States from 1790 to 1820, and 2,455,815 more came in from 1821 to 1850.
8. Of the free white females listed in the 1790 census, the following percentages are calculated to have been 16 yrs or older:- Maine 49%, New Hampshire 52%, Vermont 46%, Massachusetts 56.7%, Connecticut 56.3%, New York 49.5%. The average for the whole census is 51.7%; that is, of all listed females, approximately one-half were under 16. In New England, the family averaged 5.7 members, 2.7 of whom were under 16.
9. This census enumerates 27,337 different surnames. It lists 100 families named Bunker (or Bonker), comprising 480 persons. Of these, 2 families in New Hampshire were actually named BOWKER (See NH sheet) and two in Mass. were probably named BOUKER, as explained on the Mass. sheet. In N.Y., 18 families were named BONKER. With these corrections, the distribution of BUNKER families

SKETCH SHOWING COUNTY LINES IN 1790

County names in CAPITALS

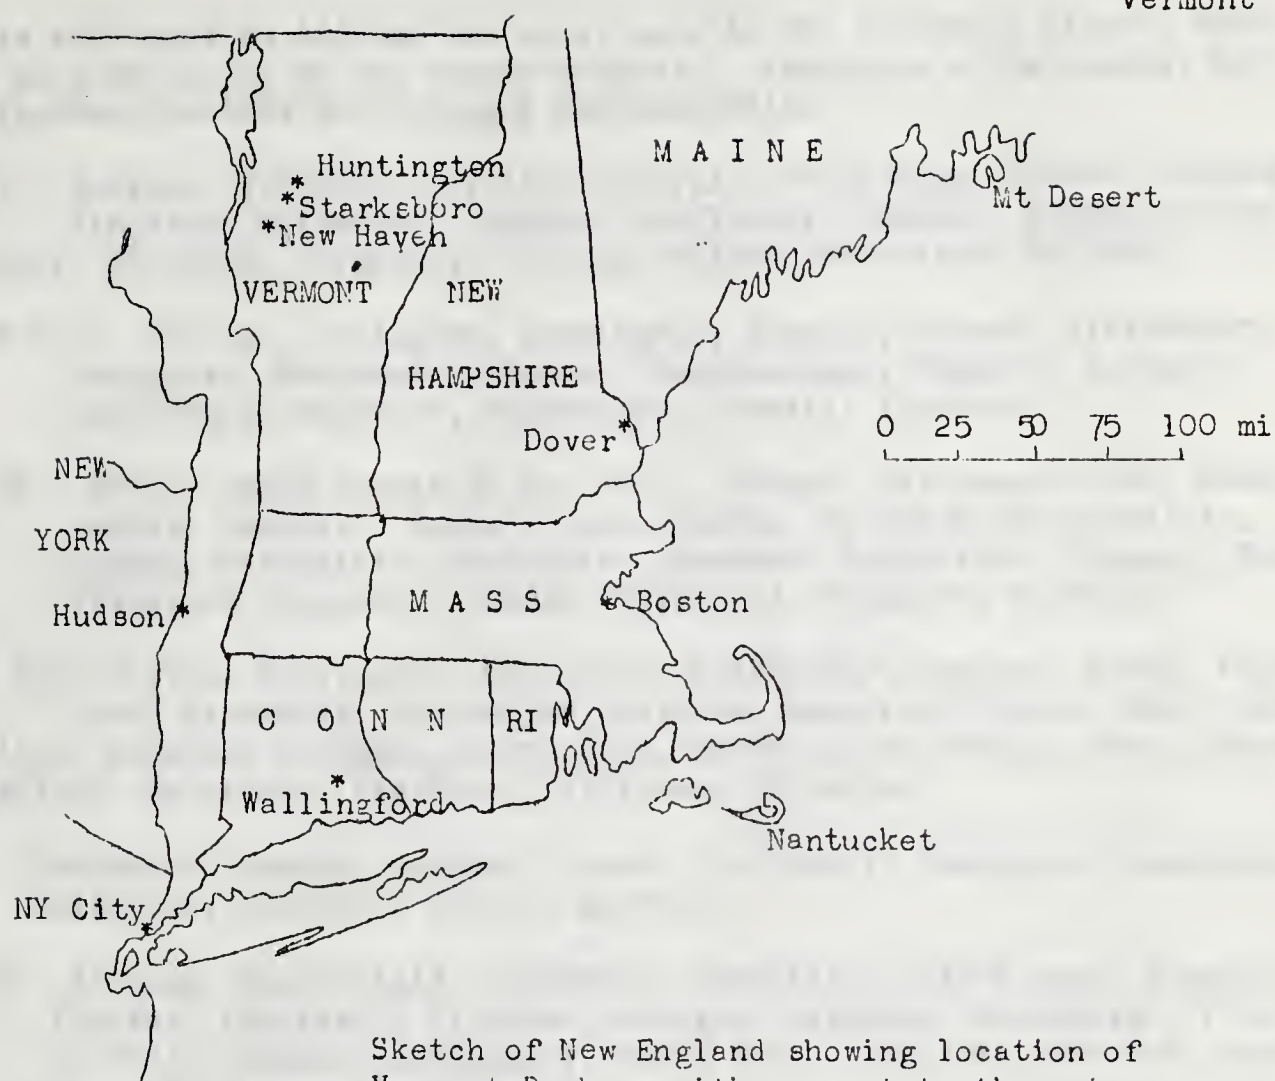

Changes in county boundaries of Bennington, Windham, Windsor, Rutland and Addison Counties from 1790 to 1900 are practically negligible. Seven new counties have been set off from Orange and Chittenden Counties.

The above county lines are taken from a diagram on page 61 of "A Century of Population Growth", compiled by the Bureau of the Census and published by the Government Printing Office in 1909.

NO BUNKERS ARE FOUND IN THE 1790 CENSUS OF VERMONT.

1800 Census
Vermont

Sketch of New England showing location of
Vermont Bunkers with respect to the main
Bunker strongholds.

The only Bunker found in Vermont in 1800 was "Dodefiord" (Dodavah?) who is listed in Vol. 1, p. 112, in Starksboro. The census in this town was completed before 20 Apr 1801.

Dodavah's family consisted of himself alone, aged 16 and under 26.

This fixes his date of birth as 1774-1784.

Bunkers are found in Addison Co. only; none in the following places, which are listed as a catalogue of the places covered. Schedules of Caledonia, Rutland, and Windham Counties are arranged alphabetically.

The names below are those of heads of families. The digits after each name have the same meaning as in the 1800 census - the first 5 refer to free white males (4th & 5th include heads of families) and the second 5 refer to free white females. Ages of each are as shown in the table.

The following additional names are listed merely to insure overlooking no Bunkers. Their surnames are probably as shown below, but poor writing in the originals indicates they might be Bunkers.

6. With reference to the Antipass Bunker whom I formerly listed in the 1790 census of New Hampshire, and later deleted:- note the occurrence in Woodstock, Windsor Co., in this census of Vermont, of "Antipass Bawker" whose family is listed as 0-0-0-0-0-1 0-1-0-0-1.

NOTES:- Census completed before the 1840 dates below, viz.- Sutton 1 Oct; Brattleboro 11 Oct; Danville 19 Oct; Huntington 29 Oct; Marshfield and Starksboro 30 Oct; Vershire 31 Oct.

Occupations are shown by the letter "a" (for agriculture) and "m" (for manufacturing). Thus "1a" means that one member of the family was engaged in agriculture, etc.

Page numbers which are underscored refer not to page numbers in the volume, but to schedule page numbers. Volumes are not yet paginated, as a rule.

In Vershire, Washington Co., is listed one Lillie Bunkerford 0-1-0-0-0-1-0-0-0-0-0-2-0-0-1-0-0-0-0-0-0-0. First occurrence of this name in Maine, N.H., or Vt.
